

I am sure

Dear Nancy Bartlett,

I do sincerely appreciate your time & effort in mailing the enclosed that I am returning to you.

Genealogy work in this office has become a great problem - this - I often wish people would "forget their family trees!" Lo & behold - here I am now joining the crowd & to top it off - I am guest speaker before the Central Missouri Genealogy Club this week!!! Oh me - how time changes a person.

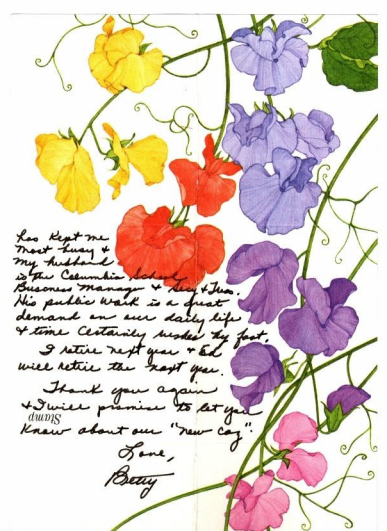

We still miss Aunt Edna - she was a dear - kind to everyone!!

I regret learning of Zach Park's death. Another regret of mine is - the time Aunt Luay told me facts & stories about the family - oh how I wish I could remember it all!!!

Attached is a "branch" to add to these papers in case anyone is interested.

My Mother, Ruth, is doing very nicely. Dad passed away last May - heart failure. Was ill many years - but always at home. Mother's heart is very bad - short of breath & she is not as active - though at home. You recall we have always shared the same home.

My political career for 40 years

Leo kept me
most busy &
my husband
is the Columbia School
Business Manager & Leo & Joan.
His public work is a great
demand on our daily life
& time certainly rushes by fast.

I retire next year & Ed
will retire the next year.

Thank you again
& I will promise to let you
^{know}
know about our "new cog".

Love,
Betty
